

**Position:** Senior Project Architect  
**Location:** Atlanta, GA

Based in Atlanta, THW Design is a multi-disciplinary firm with over 50 professionals, encompassing Architectural, Interior Design, and Land Planning studios. By seamlessly integrating these studios, the firm delivers award-winning projects with a focus on consistent and meaningful design. Recognized as one of the top senior living design firms in the nation, as well as expertise in airport lounge development & design, THW Design brings a distinctive emphasis on hospitality and community-based approaches.

Within THW Design, you'll encounter a diverse and collaborative group of professionals who collectively share a deep compassion for the individuals residing and working in the communities we design.

#### **Full Time Position Scope & Responsibilities:**

THW is seeking a Senior Project Architect experienced in commercial projects, senior living, hospitality, multi-family, residential housing and mix use.

The successful candidate will be able to demonstrate proficiency across all stages of architectural design documentation and construction processes and have a strong track record from Schematic Design to Contract Administration. Skill sets should extend to adeptly coordinating interdisciplinary design documentation involving Architectural, Interior Design, and Land Planning/Landscape Architectural teams. The candidate should bring valuable experience collaborating with external MEP and Structural consultants. Possess in-depth knowledge of the design process, including knowledge in building codes, design development, and seamless coordination with various consultants.

#### **Qualifications:**

- Minimum of bachelor's degree from an accredited professional degree program.
- 8+ years of experience, licensed professional, including supervisory experience.
- Has a strong understanding of the design process (including programming and building codes), leading design development and documentation (including detailing, building materials, and construction techniques), contract administration, and coordination with various disciplines.
- Has good experience in communicating with clients, consultants, AHJs, and contractors.
- Excellent communication skills and ability to lead and mentor Project Level Professionals.
- Has a specialized role in the development and execution of a project's design and documentation, while directing the work of a team to ensure its compliance to design intent, schedule, and budget.
- Maintains a strong knowledge of Revit, its processes and capabilities.
